1. DECOSTAR ALL IN ONE BOND

DecoStar All-In-One Bond is a high-strength construction adhesive designed for fixing and bonding different building and interior materials. It is commonly used in home interiors, renovation projects, and decorative panel installations, providing a strong and durable bond without the need for nails or screws.

COMMON APPLICATIONS

This adhesive is ideal for bonding materials such as:

- PVC wall panels
- Fluted panels and wall cladding
- Wood and MDF boards
- Stone and ceramic tiles
- Glass and aluminum surfaces
- Decorative interior elements

BEST FOR

- Interior designers
- Contractors and builders
- PVC panel installers
- Home renovation and decoration

“One Bond. Endless Applications.”

2. DECO BOND

DecoBond Construction Adhesive is designed to strongly bond various building materials without the need for nails or screws. It is commonly used in home decoration, interior design, renovation, and construction projects where a clean and durable bond is required.

COMMON APPLICATIONS

This adhesive is widely used for bonding materials such as:

- PVC panels and fluted panels
- Wall cladding
- Wood and MDF boards
- Stone and ceramic tiles
- Glass and aluminum surfaces

BEST FOR

- Typical Use in Interiors
- Installing PVC wall panels
- Fixing decorative wall cladding
- Mounting MDF or wooden boards

“Strong Bonding for Modern Interiors.”

3. FIX BOND ALL-PURPOSE ADHESIVE

Fix Bond Construction Adhesive is a high-strength bonding adhesive designed for interior construction and decoration work. It is commonly used to fix and install different building materials quickly and securely without using nails or screws.

COMMON APPLICATIONS

Fix Bond adhesive can be used for bonding:

- PVC wall panels
- Fluted panels
- Wood & MDF boards
- Ceramic tiles
- Stone & concrete surfaces
- Metal and aluminum parts

BEST FOR

- Typical Use in Interiors
- Installing PVC wall panels
- Fixing decorative wall cladding
- Mounting MDF or wooden boards
- Bonding tiles or stone elements

“Fix Bond – Strong Hold for Every Surface.”

4. FIX BOND 3058

DecoStar Fix Bond 3058 is a high-performance construction adhesive and sealant designed for strong bonding of different building materials. It is widely used in interior decoration, wall panels, PVC panels, stone, glass, and aluminum installations. It provides a durable and flexible bond suitable for modern construction and renovation work.

COMMON APPLICATIONS

- Fixing PVC wall panels and fluted panels
- Installing charcoal louvers and decorative wall cladding
- Bonding stone, glass, aluminum, ceramic, and MDF boards
- Sealing building joints and gaps
- Interior home renovation and decorative panel installation
